**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 10, 2006 has been entered.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 – 2 are rejected under 35 U.S.C. 102(e) as being anticipated by Pozniak et al. (US 6,045,543).

As to claim 1, Pozniak et al. (hereinafter referred to as "Pozniak") discloses a disposable absorbent article (8) comprising (a) a chassis, a garment-facing surface and a body-facing surface, the chassis adapted to extend from a back waist area of a

wearer to a front waist area of a wearer with the body-facing surface overlying the crotch area of the wearer, the chassis including a first waist region, a second waist region and a crotch region (figure 1); (b) a pair of side panels extending substantially laterally outward from respective edge portions of the second waist region of the article (figure 5), the side panels each carrying a securement element for engagement with the garment-facing surface at the first waist region of the article for securing the article in a wearing position on the wearer (figure 5 – elements 36A and 36B); (c) a predetermined ornamental visual image consisting of a first image element and a second image element, wherein the first image element is joined to one of the pair of side panels and the second image element is joined to another of the pair of side panels, wherein when the side panels are secured to the first waist region the first and second image elements complete the predetermined ornamental visual image, and wherein the predetermined ornamental visual image is visible when the side panels are secured to the first waist region as set forth in col. 3, lines 8 – 19 and figures 2 – 5.

With reference to claim 2, Pozniak discloses an article wherein the securement elements include fastener tabs that have a predetermined ornamental shape as set forth in figure 5.

### ***Response to Arguments***

Applicant's arguments filed August 10, 2006 have been fully considered but they are not persuasive.

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., a predetermined ornamental visual image consisting of indicia lines on left and right sides of the article) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). The examiner contends that the indicia lines on the right side, left side and in the middle of the article of Pozniak may be considered first and second image element. When fastened the image elements are conjoined and may be considered as complete as set forth in col. 3, lines 8 – 19 and figures 2 – 5.

### ***Conclusion***

This is a continued examination of applicant's earlier Application. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michele Kidwell whose telephone number is 571-272-4935. The examiner can normally be reached on Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tatyana Zalukaeva can be reached on 571-272-1115. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
